EDUCATION

Masters of Library and Information Science (MLIS) | San Jose State University, 2018,
San Jose, California

Bachelor of Arts (BA), Legal Studies & Sociology | University of California, Santa Cruz, 2016,
Santa Cruz, California

EXPERIENCE

Artificial Intelligence (AI) Librarian | San Jose State University
January 2020 - Present, San Jose, California

AI Implementation & Strategy

- Led the implementation of KingbotGPT, SJSU Library's Retrieval-Augmented Generation (RAG) chatbot built with LlamaIndex, Streamlit, and OpenAI's 4o mini model.
- Developing an agentic workflow that integrates the library's OneSearch database system with KingbotGPT. Prototype available.
- Evaluate vendor-enabled AI tools (Clarivate/ExLibris, ProQuest) for ethical compliance, usability, and academic integrity alignment.
- Guided SJSU's Responsible AI review, enabling it to become the first CSU campus to launch Primo's Research Assistant created by Clarivate/ExLibris.
- Works closely with the web, digital scholarship, and IT librarians and team members.
- Prepares monthly chatbot statistics to Reference Coordinators and Library Leadership.
- Collaborate on cross-campus and systemwide AI initiatives:
 - Member of Network for Optimizing AI in Academics (NOVA), a Provost-led initiative uniting campus stakeholders to integrate generative AI into pedagogy and curriculum.
 - AI Faculty Fellow for AY 2025-2026, a fellowship supported by Adobe's Future of AI Collaboratory, part of a cohort of nine SJSU faculty advancing innovative, ethical, and practical uses of AI in teaching and learning.
 - Member of Student Technology and Innovation Management (STIM) Committee, a CSU system-wide planning committee with other librarians and deans at other CSUs, working to implement technology across system-wide CSU Library planning.

AI Literacy & Instruction

- Designed modules for SJSU's *AI Literacy Essentials* course, now required for all incoming students and ongoing instructional designer for online resources and library research guides (SpringShare LibGuides)

- Develop and teach AI Literacy workshops: “AI Literacy: Just the Basics,” “Prompt Engineering 101,” and “Building a RAG Chatbot using Gemini + Streamlit.”
- Adapt and teach information literacy one-shot sessions with AI literacy content.
- Collaborating as San José State University’s campus representative in the Ithaka S+R *AI Literacy Cohort*, a national network of institutions advancing AI literacy frameworks and best practices.

AI Research & AI Liaison to the Library

- Principal Investigator for the *Landscape of Responsible AI in California Higher Education study*, integrating survey and web data across 100+ institutions to analyze trends in AI policy, teaching, and workforce preparedness. Report release forthcoming.
- Co-PI in AI Literacy Ithaka Study
- Provide AI research support to faculty, staff, and students.

User Experience (UX) Librarian | San Jose State University

January 2020 – January 2025, San Jose, California

Chatbot Development Lead

- Developed and implemented the earliest version of Kingbot, the after-hours chatbot for the library using Dialogflow and Kommunicate (2018). Kingbot, now called, KingbotGPT, an experimental Python-based bot with LlamaIndex, Streamlit, and OpenAI API.
- Developed a “Teaching and ChatGPT” research guide for faculty and an "AI Tools, Tips, and News" Google Chat Channel to keep library employees informed about the latest advancements in artificial intelligence.

Project Manager

- LibGuides Audit UX Committee & Project (2023 - 2025): Co-lead a collaborative UX initiative to audit 400+ library research guides and make them accessible and useful to users. Committee members include library faculty, librarians, staff members, and student assistants.
- Library Website Redesign Project (2021-2023): Led the redesign of the SJSU Library Website, developing a UX strategy that included conducting user studies with SJSU students, faculty, and staff.
- Collaborated with stakeholders, including the web services team, the Designing the Library User Experience (DLUX) working group, and library leadership. This project also resulted in the creation of user personas with DLUX.

UX Researcher

- Provided reports and recommendations for improving digital library services and physical spaces based on analytics, user data, and feedback.
- Conducted user interviews, surveys, usability tests, and other user research methods with SJSU students, faculty, and staff for the library, library website, and chatbot:
 - Twenty- four student usability studies for Kingbot (Dialogflow).

- Ad-hoc UX “hallway” testing, in collaboration with the Web Services Librarian, student assistants, and other library colleagues. This included testing for: library floor plans, OneSearch Primo Facets, and SpringShare LibGuides.
- "Talkback Board" activity in collaboration with the User Engagement Librarian, collecting over 400 student responses, which led to changes in study room policy length based on user feedback.

UX Designer

- Creates mock-ups and prototypes for library website pages using Figma, a web design tool for user interface (UI) and user experience (UX) design.
- Helped implement and facilitate monthly UX and design thinking workshops and projects as cofounder and co-lead of a collaborative library UX working committee focused on improving library user experiences (Designing the Library User Experience).

Librarian Instructor & Mentor

- Teach information literacy sessions for Engineering 100W classes.
- Assist students with academic research through virtual reference services.
- Advised and presented on multiple panels for SJSU iSchool students and other library student groups.
- Supervised six SJSU student assistants in UX and chatbot-related tasks.

Access Services Interim Manager & Library Specialist 3 | Stanford University

August 2016 - December 2019, Stanford, California

Manager & Service Desk Lead

- Led the service desk and monitor employee timesheets.
- Oversaw two staff managers, and assisted patrons with circulation tasks including checkouts, library card issuing, and ready reference.

UX & Graphic Designer

- Audited 26 web pages on the Stanford Libraries’ website and provided recommendations for changes, which were published on the live site.
- Discussed UX methods and strategies to improve the online experiences of library patrons as a member of Stanford Libraries’ Online Experience Group (OEG), a professional librarian committee at Stanford Libraries.
- Updated and created library signage and handouts using Adobe Illustrator CS6, Photoshop CS6, and InDesign CS5.

Emerging Technology Intern (Chatbot Development) | San Jose State University

August 2018 - January 2019, San Jose, California

- Compiled research on chatbot usage in libraries, education, and business.
- Utilized project management (Scrum), technology, and teamwork skills to develop a chatbot for the library website.

- Applied user experiences principles to the creation and content of the chatbot for patron accessibility and usability.
- Created user stories and used library reference data to map user needs and chatbot responses to technical and directional user questions.

Teacher Aid | La Mesa Dale Elementary

November 2015 – June 2016, San Diego, California

- Provided educational support in elementary math, reading and writing in small groups and one on-one instruction.
- Instructed children on the proper use of iPads, computers and other digital technologies.
- Supervised students and provided educational support to students who needed additional help or special attention.

Digital Archival & Website Assistant | San Diego Office of the City Clerk

October 2015 - December 2015, San Diego, California

- Developed the Balboa Park Digital Collection from a large inventory of digitized historical records for the City of San Diego's Digital Archives website.
- Web pages edited in Hypertext Markup Language (HTML).

Web Archiving Intern | Library of Congress

January 2015 - December 2015, Washington, District of Columbia (DC)

- Assisted web archivists and metadata librarians with data cleanup and management of web archive collections using Excel and Library of Congress Web Archives (LCWA) interface.
- Completed title cleanup and country assignment for 6000 URLs: reviewed conflicting category information, grouped government URLs and added metadata.
- Reviewed collections prior to launch via LCWA website.

Law Library Volunteer | Santa Cruz County Law Library

April 2014 – June 2014, Santa Cruz, California

- Assisted Law Librarians with clerical responsibilities.
- Instructed public citizens in the use and location of library resources.
- Updated legal resources and guides under the direction of law librarians as new regulations were introduced.

Student Intern | University of California at Santa Cruz

September 2012 - June 2013, Watsonville, California

- Taught basic computer and internet education in Spanish to parents in a library tech lab in Watsonville, California.
- Proposed projects, solutions, and exercises to decrease the Digital Divide.
- Developed grant writing skills, basic web design (HTML, CSS), Excel, and project management.

Roving & Collection Maintenance Student Assistant | McHenry Library University of California, Santa Cruz

September 2012 – June 2015, Santa Cruz, California

- Acquired location of physical and electronic books, catalogues, library databases, academic journals and other electronic repositories for patrons.
- Assisted patrons with reference information services including answering research and campus questions.
- Provided library tours.
- Organized and shelved book trucks and maintained sorting rooms and book collections.

PROFESSIONAL SERVICE

Member, Systemwide Technologies Initiatives Management Committee (STIM)

2025 – Present, California State University

- Committee under the California State University Council of Library Deans.

Member, Network for Optimizing AI in Academics (NOVA)

2025 – Present, San Jose State University

- Campus-wide advisory group focused on integrating generative AI into pedagogy and curriculum.

Member, Anti-Racism Assessment and Advocacy Committee (formerly Anti-Racism Assessment Working Group)

2020 – Present, San Jose State University

- Focuses on assessing and advocating for anti-racism initiatives within the library.

Co-founder and co-chair, Designing The Library User Experience Working Group (DLUX),

2021 – 2025, San Jose State University

- Library UX working group dedicated to improving the library user experience for the SJSU community.

Member, Online Experience Group (OEG)

2018 – 2019, Stanford University

- Library working group that discussed UX methods and strategies to improve the online experiences of library patrons.

HONORS, AWARDS, & RECOGNITION

Honorarium

- Library Journal & Special Library Journal Professional Development. (2024, June) *Empowering Library Users with AI*. – Invited as an expert to speak on libraries and AI for a national course workshop.

Media & Magazine Features

- The Washington Post. (2025, September). *5 tips for getting better answers from AI*. – Provided tips on using AI; highlighted as a professional expert.
- The Washington Post. (2025, August). *We tested which AI gave the best answers without making stuff up. One beat ChatGPT*. – Worked with reporter to assess AI model accuracy and bias; highlighted as a professional expert.
- ANKOS AI Research Group e-Bulletin. (2025, July). *YZ Kütüphanecisi: Sharesly Rodriguez ile söyleşi* [Interview with Sharesly Rodriguez]. Kadir Has Üniversitesi E-Bülten, Turkey – Interviewed as the first AI Librarian, highlighting international recognition of the role.
- American Libraries Magazine. (2024, March). *Realizing potential: Libraries employ (and investigate artificial intelligence)* – Highlighted for work on San Jose State University's Kingbot AI Chatbot.
- American Libraries Magazine. (2022, October). *5 library jobs on the rise* – Highlighted for emerging role in user experience librarianship and work at San Jose State University Library.

Grants & Scholarships

- Public Interest Technology University Network (2025), San Jose State University. Landscape of AI.
- SEED Grant Award (2022), San Jose State University. Chatbot Research Study.
- Scholarship (2015), Special Library Association-San Diego Chapter (SLA-SD).
- Scholarship (2014), University of California, Santa Cruz - Matthew Graviano Memorial Scholarship.
- Scholarship (2011), San Diego Ford Salute to Education.

PROFESSIONAL MEMBERSHIPS & AFFILIATIONS

- Member, California Academic & Research Libraries (CARL), 2020-2022.
- Member, Special Library Association (SLA), 2015-2017.
- Student Liaison Board Member, Special Library Association-San Diego Chapter (SLA-SD), 2016-2017.

CERTIFICATES

- AI Tools for Teaching & Learning. (July 2024). *CSU: The California State University*. Developed skills in integrating AI tools into teaching and learning practices.
- Student Success Analytics Program. (August 2022). *CSU: The California State University*. Completed program to use data analytics to drive equity-focused, evidence-based strategies for improving student success in higher education.
- UX/UI Design. (January 2022). *Design Lab UX Academy*. Gained expertise in user experience and user interface design principles and best practices.
- Human Subjects Research. (November 2021). *Collaborative Institutional Training Initiative*. Certified in ethical research practices involving human subjects.
- UX Research & Design. (November 2020). *Library Juice Academy*. Completed a course on UX research methods and design processes.
